26th April 2010

Dear Parents, Carers, and Children

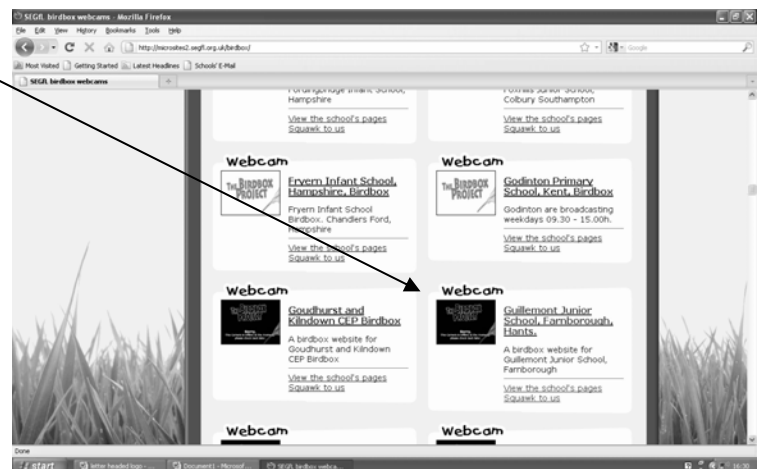

We are delighted to be able to share with you a fantastic new resource that has recently been purchased and installed.

We now have a live webcam feed, from one of our bird boxes in the school grounds. It “went live” over the Easter break, and we do have a resident bird, although she is very shy, and tends to visit mostly during the evening. We are optimistic that there will be a chick to see very soon!

If you would like to see what is happening in our bird box, at any time of the day or night, you need to visit: <http://birdbox.segfl.org.uk/>

Then, click on “Live Webcams”, and scroll down until you reach the link for Guillemont Junior School.

It's quite a long way down!

We really hope you enjoy being able to visit our bird box, and hope for lots of Guillemont chicks in the future! If you have any questions, speak to myself, (Miss Fincham) or Mrs Young.

Yours sincerely

Sarah Fincham
Science Co-ordinator
