

13th September 2022

Dear Parents and Carers

Yr5 Space themed day – Friday 30th September 2022

Our project based learning theme this term in Yr5 is Space. We are exploring the question: Why is space our home? To complement the children's learning in class, we have arranged to have a space themed activity morning at school. During the morning, each class will participate in a workshop provided by Winchester Science Centre within their inflatable six-metre state-of-the-art digital mobile planetarium.

This workshop allows the children to learn from an experienced astronomy specialist who will present 'The Solar System and Beyond', a 35 minute live show, starting with the night sky, then looking at the solar system before finding out what is beyond. The children will also have the opportunity to find out answers to the questions that they have.

The cost of this event will be £5.00 and payment can be made via SCOPAY or cash/cheque payable to HCC at the school office in a named envelope. As with all trips during school time, we have to ask for a voluntary contribution. However, if a contribution is not made, the trip cannot proceed. If you are having difficulty paying for the trip, please contact the school.

If you have any questions regarding any of the above, please do not hesitate in contacting us via the school office.

Yours sincerely

Ms S Dorset
