Getting to Guillemont Junior School

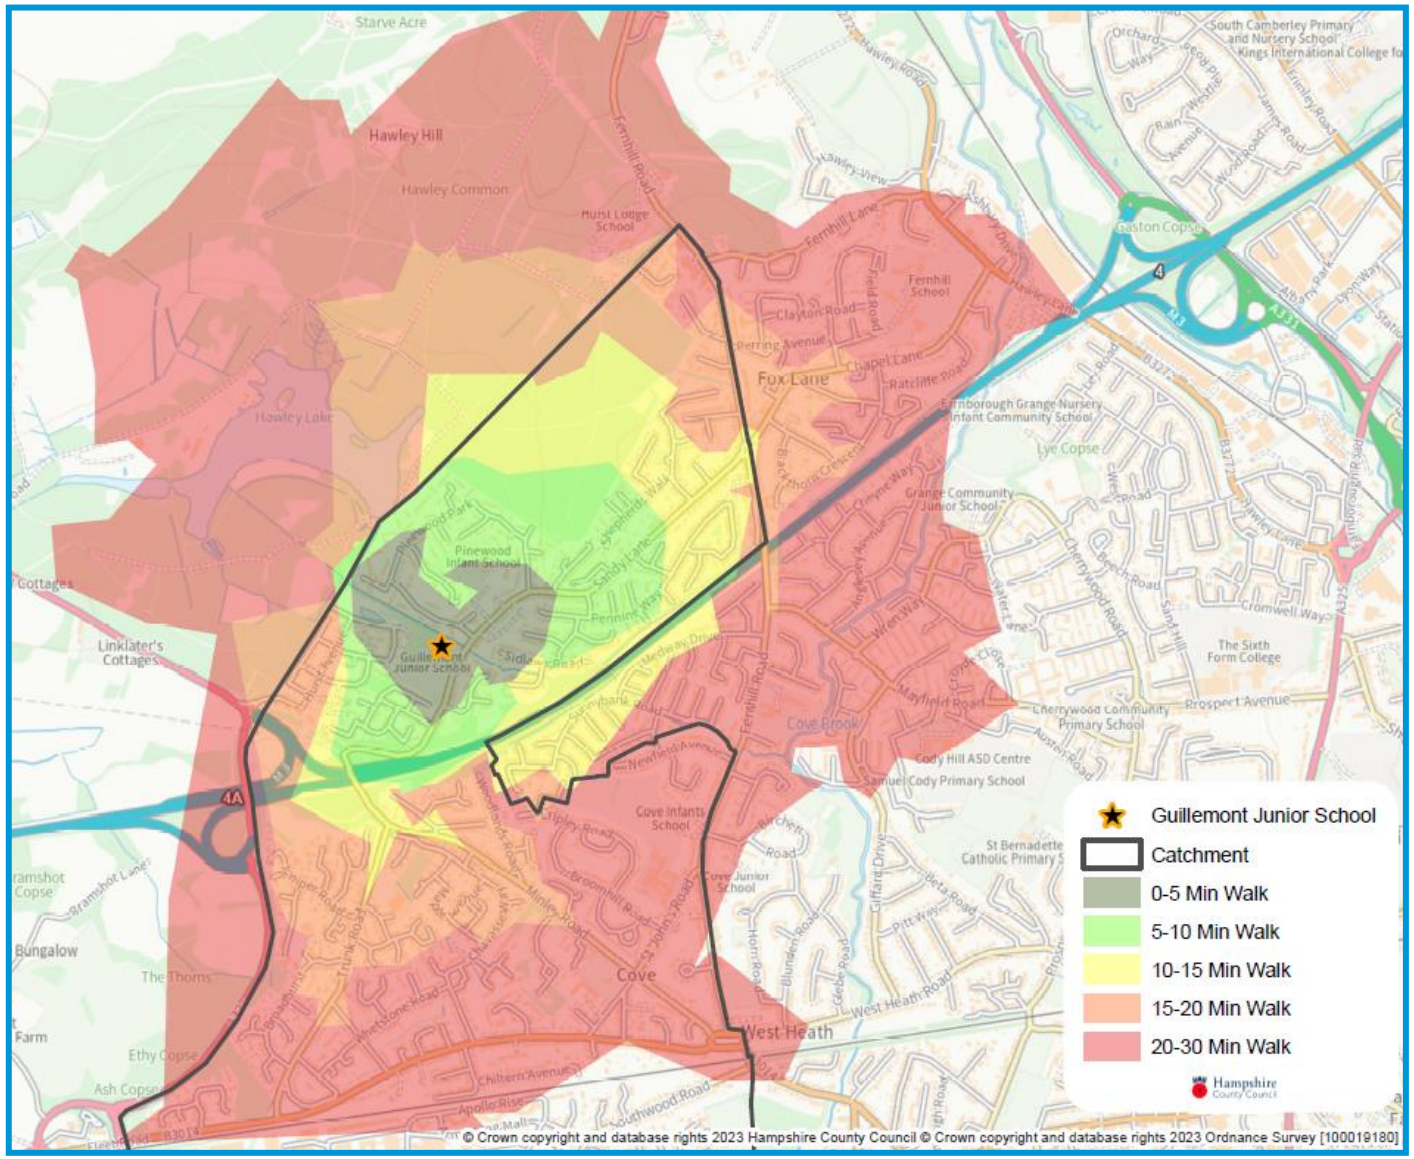

If you live within the green or yellow 10 to 15-minute walking zones, you may find it quicker to walk to school than to drive and have to find a parking space

If you live beyond walking distance and must drive, please **park and stride** and help **make it safer around the school gates** so more families can **walk, cycle or scoot to school.**

When parking on the street, always get your children out of the car on the pavement side.

Walk from a friend's house: Know friends who live locally? Why not ask to park at their house and walk together for a sociable school journey

Lift share: Going the same way as a neighbour? Why not lift share and then park and stride, saving fuel and the environment.
